PETITION IN RELATION TO THE PERTH WATERFRONT PROJECT

RE-THINK ESPLANADE DEVELOPMENT

To the President and Members of the Legislative Council of the Parliament of Western Australia assembled.

We the undersigned residents of Western Australia, while being strongly supportive of the concept of a Perth Waterfront Plan, are opposed to the current plan for the Perth Waterfront Project as:

- **the cutting of Riverside drive will have serious impacts on traffic congestion in and around the CBD, throughout South Perth and the broader metropolitan region;**
- **the plan does not recognize the cultural and heritage values of the important Esplanade Reserve, much of which would be sold off;**
- **the lengthy construction time will disrupt city businesses and tourism;**
- **the inlet will have a negative impact on the Swan River; and**
- **the huge cost of the current project is a waste of taxpayer's money.**

Your petitioners therefore respectfully request that the Legislative Council inquire into these matters before any further work on this project commences.

And your petitioners as in duty bound, will ever pray.
